Today's Currency

40 38 08/02/2033

Net Worth	\$1,040,319
You	\$660,191
Spouse	\$380,128
Change in Net Worth	\$126,223
Liquid Net Worth	\$677,114
Gross Income	\$273,884
Taxable Income	\$239,114
Passive Income	\$53,921
Total Expenses	\$133,643
Living Expenses	\$66,628
House Mortgage (Principal)	\$13,456
Kid #1	\$12,000
Kid #2	\$12,000

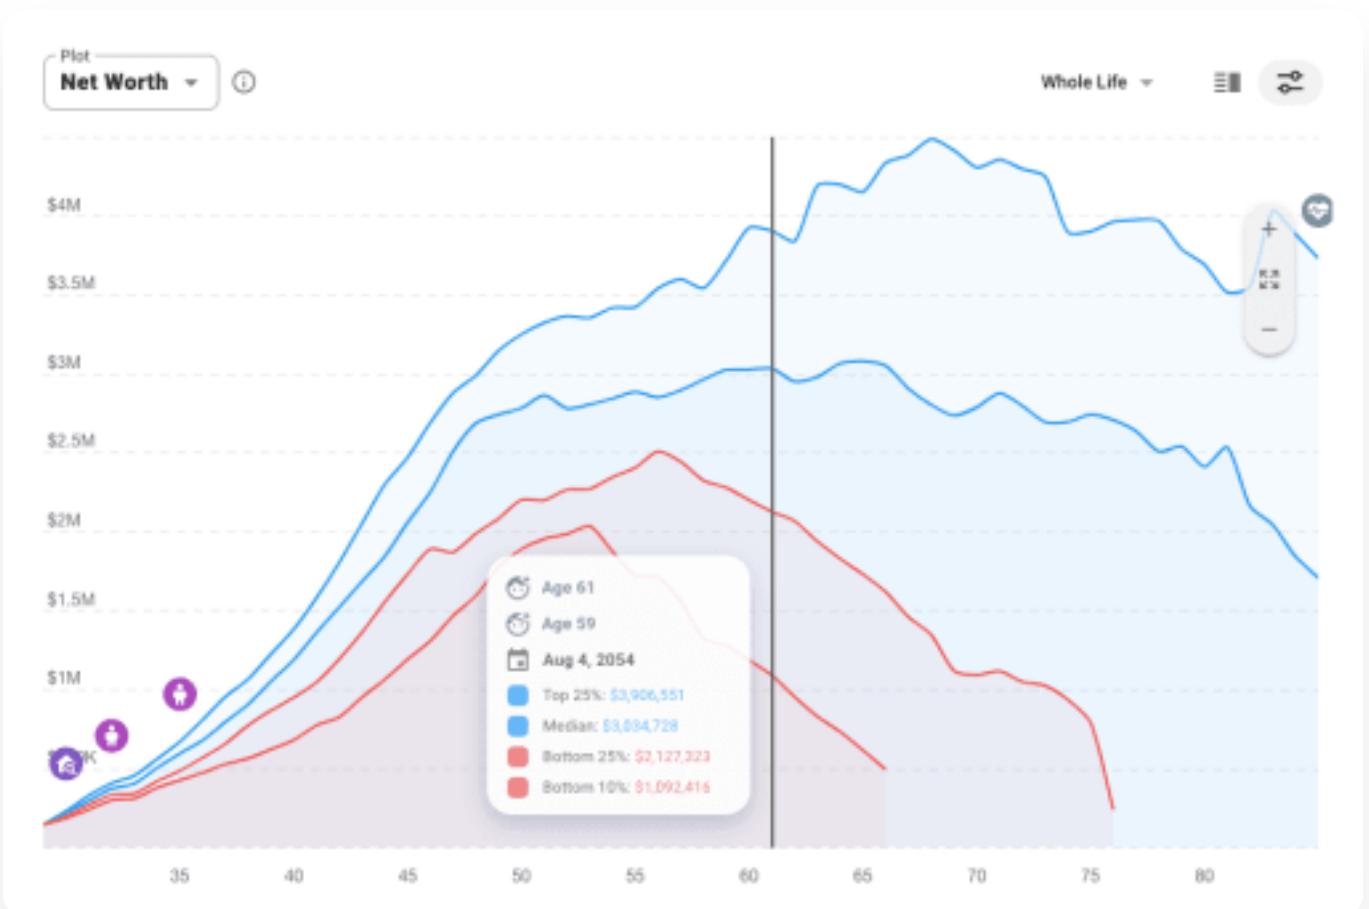

The screenshot displays a list of financial milestones in the ProjectionLab application. Each milestone is represented by a colored icon, a title, and a set of criteria. The milestones are:

- Retirement** (Green umbrella icon): Criteria: Reach milestone; Milestone: Financial Independence.
- Spouse's Retirement** (Teal umbrella icon): Criteria: At another milestone; Milestone: Financial Independence.
- Financial Independence** (Blue flag icon): Criteria: Net Worth > 25.0 (X Total Expenses) AND Liquid Net Worth >= 10.0 (X Total Debt).
- Debt Free** (Blue briefcase icon): Criteria: Total Debt == \$0 (Actual Currency).
- First Home** (Purple house icon): Criteria: You reach age 30.
- Kid #1** (Purple person icon): Criteria: You reach age 32.
- First Million** (Red star icon): Criteria: Net Worth >= \$1,000,000 (Actual Currency).

The interface uses color-coded icons and text to distinguish between different types of milestones and criteria. For example, the 'Financial Independence' milestone is highlighted with a blue flag icon and includes a complex logical condition involving 'Net Worth' and 'Liquid Net Worth' relative to 'Total Expenses' and 'Total Debt'.

DESIGNED FOR EVERYONE

What People are Saying

Physician on FIRE

@PhysicianOnFIRE

ProjectionLab is a powerful tool that can help you visualize your investments, expenses, and more over time under all sorts of different scenarios.

It's like Personal Capital's Retirement Planner on anabolic steroids!

Feb 7, 2023

Samantha S.

Nonprofit Communications Director

ProjectionLab is an important part of my financial toolkit that helps me understand where I'm at and where I want to go.

While there is a lot in life outside my control, ProjectionLab helps me make informed decisions that bring me closer to financial freedom. The level of detail and variety of variables is impressive and fun for those of us who really like to dig into the numbers.

Jackie Scholl

ProjectionLab has empowered me to plan my future! I can write down how much I expect to earn and spend, and what big purchases and moves I expect to make in the future, and then ProjectionLab allows me to play with hundreds of possible futures to answer critical questions like "when should I retire?" and "how much will it cost to move to a higher-tax state?"

Tip: multi-condition milestones are great for creating complex decision trees to represent how you would react to different market conditions.

king_ollo

u/king_ollo

Great tool from a solo founder/developer - exciting potential, too.

Dec 3, 2022

James Tribbitt

Financial Coach

ProjectionLab is the perfect tool for both beginners and advanced users who want to see the big picture of their future finances. It's so intuitive and quick to set up!

Aaron N.

Financial Analyst

This was a game-changer for me. Ever since I started using ProjectionLab, I have been more focused on saving money, investing, and paying down debt.

Retiring early is finally looking realistic for me.

Easy to use, nice pre-sets even for international users, active development and great community on Discord.

Mar 5, 2022

Jon Moore

@TheJMoore

If you don't already use ProjectionLab and you care about personal finance, it's time to start!

Hands down my favorite app that I use. Easy.

Apr 16, 2023

Mr. Money Mustache

@mrmoneymustache

Just wanted to highlight an excellent new-ish FIRE / finance planning tool, by the talented Kyle Nolan.

I have no affiliation to the project, but it's rare to see something so well-made by an indie developer. Lemme know your thoughts!

Sep 14, 2022

Philip Taylor, CPA

@ptmoney

Did a refresh (25+ hrs of research) of our list of the Best Retirement Calculators around today. New to the list... ProjectionLab.

Mar 25, 2022

Xavier LV

@xavierlv

ProjectionLab is so intuitive, powerful, AND pretty. No-brainer sub IMO. 🙌

Apr 16, 2023

Jack

VP of Operations

I'm a huge fan of ProjectionLab and it's become the tool I regularly use to plan, test, and visualize my financial plan.

I love that I don't need to connect any financial accounts and how easy it is to jump in and get started modeling out various scenarios. The slick, fast and modern interface has increased my confidence in being able to plan and forecast better over the long term.

Danish

Brooklyn, NY

I work in the industry and absolutely love the fact that ProjectionLab doesn't ask to link accounts!

Ikhsan Rahardian

Dublin City, Ireland

Stellar and can't complain.

Jan 12, 2022

Ashley Antkowiak

Entrepreneur and investor

I've used projection lab for about a year and absolutely love it. It makes me feel completely in control of not just my day-to-day finances, but also retirement, large purchases, and things like figuring out whether I'm saving too much vs investing, etc.

The cash flow priorities module is my favorite thing, and such a powerful tool! I've used it many times to play with the consequence of paying off debt early vs investing more, spending vs saving leftover income and so much more.

Thank you for creating this incredible program! I hope to use it for years to come.

March 30, 2023

Shawn Sansom

ProjectionLab is already a strong offering as a personal financial modeling tool, and the feature set continues to grow. The future looks bright for PL!

Nov 9, 2022

RobBerger.com

Rob Berger & Kevin Mercadante

On balance, ProjectionLab is an excellent tool to help you reach your financial independence or retirement goal.

Nov 28, 2022

Jose Chatelet

Amazing way to visualize and plan your finances, love that it also has tax settings for other countries besides the USA

Dec 16, 2022

Ankush

Software Engineer

ProjectionLab has helped me reduce my anxiety around my finances! I love how it helps me evaluate multiple scenarios, so I can more confidently make decisions like buying vs renting or working a more demanding job vs one with a better work/life balance.

Hugues

Data Scientist

ProjectionLab is the tool to finally take control over my financial life. It's given me the ability to think long term and play out different scenarios of how my financial life could unfold.

James Bernsen

I have been using ProjectionLab for about two years now, and it is the most feature-comprehensive financial planning tool I have ever used. It provides a complete picture of my future financial outlook and gives me confidence in my ability to (one day) retire successfully.

Jan 1, 2022

The Mad Fientist

Brandon Ganch

ProjectionLab is the most beautiful financial planning tool I've ever seen.

And, it was created specifically for people pursuing FIRE, so it's also the most-useful planning tool I've found for FI!

Mar 30, 2023

The FI Show

@TheFIShowGuys

The most robust financial planning tool we've ever seen!

Nov 15, 2022

Mark Stauber

@mark_stauber

Really love your product, subscribed in Jan. 22 and recommend it to everyone.

Apr 16, 2023

Marcel

Software Engineer

ProjectionLab is **the** most advanced and full featured financial simulation tool I've ever used. It's changed the way I visualize and plan for Financial Independence.

Shafqat A.

Entrepreneur, San Francisco

I'm fortunate enough to be considering early retirement. ProjectionLab is the *only* product that allows me to quickly model *all* my financial goals - like taking care of my parents, giving to charity, and preparing for a family.

It doesn't just tell me when I'll run out of money- it helps me visualize what different retirement dates and lifestyles look like over the next 60 years. It's beautiful, practical and extremely well designed.

I've been waiting for a tool like this for years!

Nathan B.

Engineer

ProjectionLab helped me model my multi-phase retirement plan with multiple sources of income. The level of detail possible with ProjectionLab is unmatched by other tools. I'm more confident in my plan because of ProjectionLab!

Steven Brown

P

Everything I could wish for. Mint is nice for budgeting, but for planning, this does it all! Very detailed and accurate. This is a retirement plan that I can trust.

The other calculators that return wildly different results from each other don't hold a candle to this.
