Introducing the Magic Nix

We at [Determininate Systems](#) are thrilled to announce the release of the [Magic Nix Cache Action](#), a [GitHub Action](#) that can dramatically speed up your [Nix](#)-related workflows. You can use it today—no signup, setup, or cost—by adding just one line to your YAML configuration:

```
- uses: DetermininateSystems/magic-nix-cache-action@v1
```

Here's a more complete example:

```
jobs:  
  build:  
    steps:  
      - uses: actions/checkout@v3
```
