Unlock Sleep's Restorative Power

[Reserve yours today](#)

Meet UltraSleepTM

Personalized, precisely timed micro-auditory
neurostimulation to enhance sleep's
restorative function.

[How it works](#)[Shop now](#)[About](#)

Remarkably Thin

Minimal and sleek. The headband's thickest point is slimmer than your pinky finger.

Amazingly Light

Powerful sensing paired with perfect balance means you barely notice it's there, even through the night.

[How it works](#)[Shop now](#)[About](#)

Incredibly Comfortable

Engineered of soft and flexible materials for the perfect fit through the entire night.

Affectable's patent-pending UltraSleep™ stimulation builds on more than a decade of research and over 50 peer-

reviewed studies in slow-wave enhancement.

Health & Longevity

Build lasting health, one night at a time.

Enhancing restorative function supports heart and metabolic health, protects the brain as we age, and strengthens immune resilience.

Immunity & Recovery

Restore and rebuild to meet life's demands.

Enhancing restorative function supports immune regulation and promotes recovery from physical and mental demands.

Emotion & Calm

Steady, clear resilience day long.

Enhancing restorative function helps regulate stress hormones, supports emotional balance, and builds capacity to manage life's demands.

Better sleep powers better days

Always providing

You always care for others, here's something for you
